PROFILE SUMMARY

I am a passionate Full Stack Developer with experience in both front-end and back-end technologies. Skilled in HTML, CSS, JavaScript, and frameworks like React and Django, I create seamless, scalable web applications. With a solid understanding of databases, API development, and version control, I'm committed to delivering high-quality, user-friendly solutions that drive results.

WORK EXPERIENCE

SKATYS, SAP Gold Partner Maroc & Afrique 2022 - 20223

Internship SAP ABAP Technical Consultant

- Implementing API integration using OData, allowing efficient querying and data interaction between systems while ensuring compatibility and performance

Skills Acquired

ABAP- SAP - ABAP-00

Full Stack Dev A&T (Freelance)

2022 - 2023

Full Stack Dev A&T (Freelance)

- employees managment and financial management using Angular and django

Skills Acquired

Angular - Django - NumPy - Pandas

Päiperléck

Capstone Project in Software Engineering

2022 - 2023

- Developed and deployed e-learning web applications using ReactJS, Angular, and Django. The applications were designed to provide an interactive and user-friendly learning environment, integrating features such as course management, quizzes, and multimedia content. Focused on performance optimization, responsive design, and seamless user experience across devices.

Skills Acquired
